

IP Phones for Every Workspace

All ClearlyIP phones are designed to work with your favorite SIP-based PBX or softswitch and can be easily provisioned free of charge using the ClearlyIP Device Manager software or the Clearly Devices module for FreePBX® systems.

ClearlyIP CIP phones offer powerful features while retaining an ease of use that appeals to business owners. ClearlyIP CIP phones are sleek and elegant, offering true “plug and play” functionality. Users simply connect our phones to any internet connection to instantly make and receive calls.

All ClearlyIP CIP phones offer full-duplex speakerphones with superior voice quality and rich color LCD screens. Additional features include a 2-year warranty, Zero Touch Provisioning, intercom, VPN support, and Power over Ethernet (PoE) capability.

Zero Touch Provisioning

With Zero Touch Provisioning our servers will direct the configuration to the phone of your choice. Just send the client or employee an unprovisioned phone, and you don't have to leave your desk.

ClearlyIP Phone Features

Easy to Use Phone Apps

Using our ClearlyIP Device Manager, Clients with FreePBX® 14 and above based systems can replace complicated phone commands with the click of a button.

Built-in OpenVPN Client

Our system allows you to tunnel your IP subnetwork or virtual ethernet connection, creating secure ethernet bridges to protect your data.

Power over Ethernet (PoE)

Industry standard PoE, delivers the energy to run the phone so no power cable or outlets are required.

Full Color LCD Displays

All ClearlyIP Phones come with large full-color displays creating sharp easy to read text and graphics.

Dual Gigabit Ethernet with PoE

Not every area has a separate drop for both a phone and computer. All of ClearlyIP's phones allow for high-speed gigabit passthrough for computer connectivity.

5 Way Conferencing

Sometimes your conference line may be in use. ClearlyIP phones allow up to 5 direct connections, meaning that you can have your conversations when you need them.

CIP Phone Accessories

CIP200 Expansion Module

The CIP200 adds two pages of 20 programmable keys, ideal for receptionists, with a large 160x320 color display. Add up to 4 modules for 160 keys, all programmed via ClearlyIP Device Manager. It's compatible with CIP270, CIP270v2, CIP280v2, CIP290v2, and CIP291 Plus.

CIP USB Bluetooth/WiFi Dongle

The ClearlyIP USB Bluetooth (V4.2+Hssystem) / WiFi (2.4GHz/5GHz, IEEE 802.11a/b/g/n/ac) Dongle enables wireless Bluetooth headsets and dual-band WiFi connectivity on CIP250v2 and CIP230v2 with plug-and-play ease.

ClearlyIP EHS30 Headset Adapter

Connects ClearlyIP phones to wireless headsets that have EHS (Electronic Hook Switch) capability. ClearlyIP's EHS30 headset adapter supports popular wireless headsets such as Plantronics and Jabra.

ClearlyIP USB Panic Button

The USB Panic Button connects to ClearlyIP Phones and can be easily placed under a desk or on a wall. When pressed, it triggers the phone's Panic Button feature, allowing it to call any PBX destination (e.g., Ring Group, Queue, Page Group) without indicating an active call or activating the speaker.
