

# ClearlyIP CIP740 PBX Appliance

The CIP740 PBX is a powerful 1U appliance designed specifically for real time communication systems, like PBXs. The CIP740 Phone System comes with FreePBX<sup>®</sup> preinstalled and has been tested with 200 extensions and 50 concurrent calls while using less than 50% of system resources.

## **FreePBX®** Distro Preinstalled

FreePBX® is a web-based open source GUI that controls and manages Asterisk® (PBX), an open source communication server.

## Integration with ClearlyIP SIP Trunking

### www.clearlyip.com/sip-trunking/

ClearlyIP SIP trunking is a simple price based trunking platform for US and Canada customers with powerful feature set for businesses and tight integration when using FreePBX as your PBX.

Simple pricing model and instant signup and real time buying of phone numbers in your rate center.

## **Integration with ClearlyIP Phones**

#### www.clearlyip.com/ip-phones/

ClearlyIP suites of IP phones can connect with your CIP740 PBX appliance to give you a single hardware vendor solution for your phones and PBX appliances.
