# XCAST BY CLEARLYIP

Easy Integration with

Hosted PBX

All you need is Internet to use XCast Hosted PBX services. Phones arrive preconfigured so it's a "plug and play" experience. From our VCP platform, you can manage your own call flow, call recording and conferencing, plus many other features customized for your own environment.

All PBX plans offer unlimited, Free inbound calls!

Security & Privacy

Block Robocalls
Users have the option to block anonymous callers or have them automatically sent to voicemail.

Encrypted VoIP
Provides call encryption on site between customers and the hosted switch.

Captcha
Intelligent patent protected robocall prevention by forcing the caller to a enter random number with available automatic whitelisting.

Universal Access

With the XCast XCL Phone App for Android and iOS, you can send and receive calls on tablets and smartphones. XCast Hosted PBX also supports various desktop softphone applications. Users can stay connected and manage their communications from virtually any device, ensuring flexibility and ease of use across different platforms.

XCast Hosted PBX   Internet
