

Small Office + Home Office Solutions

ClearlyIP's XCast solutions offers comprehensive Small Office + Home Office (SOHO) solutions, tailored for entrepreneurs, freelancers, and small business owners who need reliable, scalable, and efficient communication tools. Our SOHO services are designed to keep your business connected, no matter where you work from.

Benefits for Your Small or Home Office

Cost-Effective

No expensive hardware or upfront investment required. Pay as you grow, and only for what you need.

Professional Presence

Maintain a professional image with enterprise-grade communication features such as auto-attendant, music on hold, and call recording.

Enhanced Productivity

Streamline your operations by integrating communication tools that save time and reduce complexity.

Flexible and Reliable

Whether you're working from a home office or a small business location, our solutions are tailored to meet your needs, ensuring reliable and uninterrupted service.

Who is it for?

- » Small businesses with 1-20 employees
- » Entrepreneurs, freelancers, and remote workers
- » Startups looking to scale without large communication overhead
- » Any home-based office that requires professional-grade phone systems

Key Features

Hosted PBX

A cloud-based phone system with advanced calling features typically only available to large enterprises. Access features such as voicemail-to-email, call forwarding, auto-attendant, and more, all from a simple web interface.

SIP Trunking

Enjoy high-quality voice calls over the internet while reducing costs. The XCast SIP Trunking solution provides reliable, secure voice communication with support for multiple lines and concurrent calls, even for home-based offices.

Unified Communication

Integrate voice, video, messaging, and collaboration tools in a single platform to enhance productivity. With a flexible, easy-to-use system, you can connect with your team and clients seamlessly from any device.

Scalability

As your business grows, our solutions scale effortlessly. Start small with just a few lines and expand to accommodate additional employees, remote workers, or new locations without the need for hardware upgrades.

Mobile and Remote Access

Work from anywhere with full access to your business communications. Our solutions include mobile apps and softphones that let you make and receive calls using your business number, regardless of your location.

24/7 Support

Access world-class customer support whenever you need it. Whether you're troubleshooting or simply need guidance on optimizing your communication tools, we're here to help.
