CIP-750-CX

Mid-Size Hospitality Call Control with Built-In Scalability

The ClearlyIP CIP-750-CX Call Controller is purpose-built for mid-sized hotels, resorts, and multi-floor hospitality properties that demand both capacity and room to grow. Engineered for performance and reliability, it supports up to 500 extensions and 100+ concurrent calls, making it the perfect fit for properties with high call volumes or seasonal demand fluctuations.

Housed in a space-efficient 1U rackmount chassis, the CIP-750-CX combines 8 GB of memory with a 256 GB solid-state drive to ensure fast, dependable performance. Whether it's day-to-day guest communication or peak seasonal traffic, this system keeps operations running smoothly.

Its dual RS-232 serial ports enable seamless integration with property management systems (PMS) and call accounting systems (CAS), making it ideal for environments that rely on interconnected hospitality technologies. With a balance of capacity, reliability, and expandability, the CIP-750-CX is a smart investment for properties planning for growth.

KEY HIGHLIGHTS

- » Capacity for up to 500 extensions and 100+ concurrent calls.
- » Dual serial ports for Property Management Systems (PMS) and Call Accounting Systems (CAS).
- » 1U form factor saves space in server racks.
- » Scalability for seasonal increases or permanent growth.
- » Reliable solid-state storage for dependable performance.

IDEAL APPLICATIONS

- » Mid-sized hotels and resorts
- » Multi-floor hospitality properties
- » Small campuses needing unified call control
